It is our determination now as ever to make tools that need no recommendation to sell them, and that shall still be the **STANDARD** of excellence.

 For forty years the tools made by Buck Brothers have had the reputation among wood-workers in the United States as being the best tools manufactured and although higher in price than other makes, constant use has proved them to be the cheapest in the end.

By using the best Cast Steel, employing the most competent workmen, and by constant personal attention to a business we thoroughly understand the reputation is maintained.
